

Housing e-Academy

A Division of Virtual College

Who are We?

The Housing e-Academy was established in 2006 when our founder member, Incommunities, approached Virtual College to make housing specific e-learning courses. Since then our membership has grown and we now work with over 100 social housing providers and ALMOs of varying sizes across the UK.

Our Aim

Our aim is to improve the education and training process for individuals and organisations that work within, or provide support to, the social housing sector. Our prime focus is to make strategic use of online solutions to help enhance the traditional approach to education and training. These solutions are developed in cooperation with our members and experts working within the sector to ensure that they meet the required legislation and standards.

Our Structure

The Housing e-Academy is a division of Virtual College, one of the UK's leading e-learning providers with over 900,000 online learners. The Housing e-Academy makes use of Virtual College's Learning Management System, E>nable, allowing you to track and organise all of your face to face training and e-learning needs.

Our Services

The Housing e-Academy works with individuals and organisations to provide cost effective training. To help you get the most out of e-learning, we offer memberships in the following:

- Staff and Board Member Training
- Tenant Training
- Training for Individuals (in partnership with the Chartered Institute of Housing)
